Seat No: _____

M.Sc. (Botany) Semester - 4 (CBCS) Examination March/April- 2019 Plant Physiology and Metabolism

Plant Physiology and Metabolism (CORE)

| Time: 2:30 Hours | | Marks: 70 | |
|------------------|--|---|--|
| Instruc | | | |
| | questions are compulsory. gures to the right indicate marks. | | |
| AT 25 20 20 20 | | com and and any and and any and any and | |
| Q.1 | Answer the following (any 7) | 14 | |
| 1. | What is the difference between C3 and C4 plants? | | |
| 2. | State the importance of Abscission | | |
| 3. | What is Photolysis of water? | | |
| 4. | Define the Non-cyclic photophosphorylation | | |
| 5. | Explain the term diffusion | | |
| 6. | What is morphogenesis in plants? | | |
| 7. | State the types of stomata are found in plants? | | |
| 8. | What is Photograpia diam? | | |
| 9. 10. | What is Photoperiodism? Define: Scarification | | |
| 10. | Define. Scarmcation | | |
| Q.2 | Answer the following (any two) | 14 | |
| 1. | Write a detailed note on Vernalization | | |
| 2. | What is seed viability? Explain in detail | | |
| 3. | Write note on Seed dormancy | | |
| Q.3 | Answer the following | 14 | |
| 1. | What are macro – nutrients elements in plants? Explain their role in plant grown | th | |
| _ | and development. | | |
| 2. | Transpiration and stomatal movement | | |
| Q.3 | OR Answer the following | 14 | |
| _ | | 1. | |
| 1. | State the physiological importance of micro-nutrients | | |
| 2. | Write a detailed note on water potential | | |
| Q.4 | Answer the following (any two) | 14 | |
| 1. | Explain photorespiration and state its significance | | |
| 2. | Write a note on CAM pathway | | |
| 3. | C3 cycle – Describe | | |
| Q.5 | Answer the following (any two) | 14 | |
| 1. | Write a note on Gibberellins in plant | | |
| 2. | Explain the role of Jasmonic acid and Polyamines as plant growth regulators | | |
| 3. | State the function and role of hormone Auxin in plants | | |
| 4. | Describe the importance of Cytokinin and Brassinosteroides | | |
